CALENDAR.

1923.

1 9 2 2

MONDAY, SEPTEMBER 18.....Opening of Session and Reception
of Candidates for Admission.

TUESDAY, SEPTEMBER 19.....Examination for conditioned
students.

WEDNESDAY, SEPTEMBER 20...College opens for regular work.

THURSDAY, SEPTEMBER 21.....Classes begin recitations.

THURSDAY, NOVEMBER 30.....Thanksgiving Day.

FRIDAY, DECEMBER 22.....Commencement of Christmas Vaca-
tion.

1 9 2 3

TUESDAY, JANUARY 2.....Resumption of College Exercises.

MONDAY, FEBRUARY 5.....Second Term begins.

WEDNESDAY, MARCH 28.....Easter Vacation begins 12 mid-
day.

WEDNESDAY, APRIL 4.....Easter Vacation terminates at 7.00
P. M.

WEDNESDAY, JUNE 13.....Commencement Day.

ORGANIZATION.

The charter of St. John's College was granted in 1784, and the institution opened in 1789. But under another form and name it had been doing its work during nearly a hundred previous years, and is, therefore, one of the oldest colleges in the country. At the city of St. Mary's, then the capital of Maryland, as early as 1671, the Upper House of the General Assembly passed an Act "for founding and erecting a school or college for the education of youth in learning and virtue." This was followed by the Act of 1696, establishing KING WILLIAM'S SCHOOL, which was opened 1701. Here were educated some of the most distinguished sons of Maryland—physicians, lawyers, statesmen, clergymen—and pre-eminent among the brilliant number was William Pinkney, whose learning and eloquence have a national fame. KING WILLIAM'S SCHOOL was, in 1784, merged into St. John's College, which has thus been connected with the State of Maryland from the early times of colonial history. Francis Scott Key, author of our favorite national ode, and Reverdy Johnson, distinguished as a lawyer and a statesman, are among the alumni, and many others, scarcely less eminent, could be mentioned.

LOCATION AND ACCESS.

The college is pleasantly situated at Annapolis, on the banks of the Severn river, a few miles from the Chesapeake Bay. Nothing in the country surpasses the picturesque beauty of its situation. The college green is spacious, amply shaded, and most attractive to the eye, while the campus, in the rear, is admirably adapted for sports. Bordering the grounds, "College Creek," a branch of the Severn, affords every facility for swimming and boating. Indeed, the situation combines every advantage desirable for a college. The buildings are large, commodious, and well adapted for purposes of both classical and technical education, and accommodate two hundred and fifty students.

Annapolis has hourly trolley communication with Baltimore and Washington, daily steamboat connection with the former city, and telephonic and telegraphic connection with every part of the country.

BOARD OF VISITORS AND GOVERNORS.

PRESIDENT

(Under the Charter elected annually.)

HIS EXCELLENCY, ALBERT C. RITCHIE,
The Governor of Maryland,
Annapolis, Md., 1920.

PRESIDENT

(Pro-tem.)

HON. ROBERT MOSS,
Annapolis, Md.

SECRETARY.

L. DORSEY GASSAWAY, Esq.,
Annapolis, Md., 1891.

(Ex-Officio.)

HON. WM. J. NORRIS,
President of the Senate,
Baltimore, Md.

(Ex-Officio.)

HON. JOHN P. BRISCOE,
Judge Court of Appeals,
Prince Frederick, Md.

HON. MILLARD V. TYDINGS,
Speaker of the House of Delegates,
Harford County.

HON. JOHN R. PATTISON,
Judge Court of Appeals,
Cambridge, Md.

HON. A. HUNTER BOYD,
Chief Judge Court of Appeals,
Cumberland, Md.

HON. WM. H. THOMAS,
Judge Court of Appeals,
Westminster, Md.

HON. HENRY STOCKBRIDGE, JR., HON. WILLIAM H. ADKINS,
Judge Court of Appeals, Judge Court of Appeals,
Baltimore, Md. Elkton, Md.

HON. T. SCOTT OFFUTT,
Judge Court of Appeals,
Towson, Md.

HON. HAMMOND URNER, JR.,
Judge Court of Appeals,
Frederick, Md.

BOARD OF VISITORS AND GOVERNORS.

MILLER, Baltimore, Md.; HENRY C. RUHL, Baltimore, Md.; REV. JOHN I. YELLOTT, Bel Air, Md.; HOWARD B. MATTHEWS, Cambridge, Md.; VERNON S. BRADLEY, Cambridge, Md.; EDWIN H. BROWN, Centreville, Md.; HENRY P. TURNER, Easton, Md.; EDWARD T. CLARKE, Ellicott City, Md.; ARTHUR WILLARD, Frederick, Md.; JOHN S. NEWMANN, Frederick, Md.; J. VINCENT JAMISON, Hagerstown, Md.; A. R. HAGNER, Hagerstown, Md.; JOHN F. MUDD, LaPlata, Md.; BERNARD GWYNN, LaPlata, Md.; WILLIAM STANLEY, Laurel, Md.; AMOS W. WOODCOCK, Salisbury, Md.; NICHOLAS OREM, Upper Marlboro, Md.

THE FACULTY.

THOMAS FELL, M.A., Ph.D., LL.D., D.C.L.....President
Professor of Moral Science.

JOHN BROCKWAY RIPPERE, B.A., M.A., L.H.D.Vice-President
 (Graduate of Wesleyan University.)
Professor of Latin.

JOHN B. WHITE, M.A., L.H.D.
 (Graduate of Geneva College.)
Professor of Greek and Latin.

BENJAMIN HARRISON WADDELL, M.A., L.H.D.
 (Graduate of Washington and Lee University.)
Professor of Mathematics.

REGINALD H. RIDGELY, B.S., M.A., D.Sc.
 (Graduate of St. John's College.)
Professor of Biology.

SIDNEY S. HANDY, B.A., M.A.
 (Graduate of Columbia University.)
Professor of English.

HAROLD BRENTON SCARBOROUGH, B.A., M.A.
 (Graduate of St. John's College.)
Professor of Drawing and Physics.

CLARENCE WILSON STRYKER, B.A., M.A.
 (Graduate of Union College and Columbia University.)
Professor of History and Political Economy.

GROSVENOR L. TOWNSEND, Lt. Col., U. S. A.
*Professor of Military Science and Tactics, and Lecturer on
 International and Constitutional Law.*

ARTHUR J. O'KEEFE,
 Captain U. S. Army (Retired)
Assistant Professor of Military Science and Tactics.

CARL SCHWINN,
 Captain, U. S. Army
Assistant Professor of Military Science and Tactics.

ERNST O. VON SCHWERDTNER, B.Sc.
 (Graduate of St. John's College.)
Professor of Modern Languages.

BYRON V. CECIL, M.A., D.Sc.,
(Graduate of St. John's College)
Professor of Chemistry.

WILLIAM L. MARCY,
(Graduate of the National Institute of Pharmacy, and of the
Pennsylvania Military College.)
Instructor in Sanitation and Hygiene and Assistant in Chemistry.

THOMAS L. GLADDEN, M.A.
Asst. Professor in Latin and Mathematics.

ROSCOE E. GROVE, B.A.
(Graduate of St. John's College.)
Assistant Professor in Physics and English. .

JOHN C. FELL, B.S., M.A.
(Graduate of St. John's College.)
Assistant in English and History.

SARAH BERRY.
Registrar and Secretary for the President.

GENERAL REGULATIONS.

A copy of the general rules of the college can be obtained upon application at the President's office.

All students are required to be present promptly on the opening day of the session, but no students except those having special permits from the Faculty will be allowed in the College buildings before the regular day of opening.

Each member of the Senior, Junior and Sophomore classes is allowed, in each term, as many absences from recitations in any study pursued by him in the class of which he is a member, as there are prescribed recitations per week in that study; and for each absence above the number thus allowed, he will be given zero as a recitation mark, and ten demerits.

Each student of the Freshman Class is allowed in each term three absences from recitations, in each study in which four recitations per week are prescribed; two absences in each study in which three recitations are prescribed, and one absence in each study in which two recitations are prescribed.

Excepting these cuts he will be marked zero for each and every absence whatever from recitations, and shall also receive ten demerits if the excuse for the absence is not satisfactory. In this case all absences owing to prolonged illness may be considered by the Faculty, upon the recommendation of the President, or upon the certificate of a recognized physician.

ABSENCE FROM COLLEGE.

Absence of athletic teams, glee clubs, delegates to the fraternity conventions, etc., is made the subject of special permission, for which application must be made, in every case before the absence, to the Faculty.

All omitted exercises, allowed or excused, *must be made up within one week* after the resumption of college duties, at a time and place appointed by the instructor whose exercises were omitted. The responsibility in this matter rests with the

student. For special reasons the instructor may grant an extension of the time beyond one week. In all cases a student is held responsible for preparation on omitted work whenever involved in review or examination.

Omitted exercises, not allowed or excused (or in any case, if not made up), will be counted as failures in reckoning a student's standing.

COURSES OF STUDY.

The *College Course* embraces three groups of studies for undergraduates, each occupying four years, viz.:

1 and 2. The Classical and the Latin-Scientific, both of which lead to the degree of Bachelor of Arts.

3. The Scientific course, which leads to the degree of Bachelor of Science.

The scheme of study in the different groups, arranged for the sake of comparison, in parallel columns, will be found on pages 31 to 33, inclusive. In order to obtain one of the above-mentioned degrees, a student must have completed satisfactorily the course as herein laid down, but for such as may not be studying for a degree, select courses will be arranged according to the option of the parents or guardians, subject to the approval of the Faculty. On the successful completion of such special courses, certificates will be given.

Post-graduate courses are arranged for those graduates who wish to become candidates for the Master's degree.

REMARKS ON COURSES.

It is to be seen that in the classical course, the study of Mathematics is discontinued after the Sophomore year, at which point the study of the sciences begins. The classical student will thus devote some time to scientific study, the particular branches being elective. Also, the student of the Latin-Science course, taking no Greek at all, and discontinuing Mathematics at the end of the Sophomore year, enjoys a fuller course of English, and begins the study of Science earlier than the classical student. In the Scientific course, in which neither Latin nor Greek is required, four years are given to Biology, Physics, Chemistry, and to Mathematics, and three years are

given to the study of English. A full course in both French and German is required for every degree.

No student will be permitted to discontinue any study, except at the close of the term, and then only at the *written* request of his parents or guardian.

Students pursuing a select course may enter any class for which they are fitted, the number of their studies being subject to the direction of the Faculty.

REQUIREMENTS FOR ADMISSION FOR SESSION 1922-1923

WILL BE AS FOLLOWS: (15 UNITS REQUIRED.)

All candidates for admission to the College must offer satisfactory evidence of good moral character, and those coming from other colleges must present letters of honorable dismissal.

A candidate who offers credentials from a recognized school showing that he has completed the requirements for entrance as given below will be admitted, provisionally, to the Freshman Class. A candidate who does not offer credentials will be examined upon the work required for entrance.

Whether a student enters by credentials or by examination he is not given full standing until he has shown by doing satisfactory work that he is able to pursue a college course with success.

SCHOLASTIC REQUIREMENTS.

The completion of a four-year high school course in an accredited school.

Students presenting certificates from four-year accredited high schools and academies will be admitted without examination.

Students from high schools accredited by their respective State authorities will be given credit without examination for work done in those schools.

Students presenting their units from non-accredited schools will be required to take examination in four major subjects, selected from the subjects usually given in the fourth year of a high school.

To receive a full unit of credit in any of the laboratory sciences, students not graduates of accredited four-year high

schools must submit a satisfactory laboratory note book, based upon individual laboratory experiments.

A unit represents a year's study in any subject in a secondary school, constituting approximately a quarter of a full year's work.

The subject should be pursued for not less than 36 weeks, and the recitation periods should not be less than 40 minutes, five times a week. The ground covered must obviously be stated for each subject separately, but is usually well understood. If the work is lacking in either, the credit will be reduced. For example, plane geometry completed in less than 120 hours is not a full unit. On the other hand, plane geometry pursued the full time is not a unit unless the five books, with originals, are completed. It will also be noted that full credit can not be given each unit if the school from which the applicant comes regularly permits the students to carry five or more subjects. Exceptions may be made only in rare cases, for students of exceptional ability.

OPPORTUNITIES FOR REMOVING CONDITIONS.

Conditions may be removed by attendance upon an accredited Summer School. It is highly desirable that they be removed before entrance upon the regular college work. For that reason prospective students with less than the 15 units required for next session are strongly urged to remove all conditions this summer by work in a Summer School.

The units required for entrance to the various courses are as follows:

CLASSICAL.

Latin.....	4 units
English.....	3 units
Mathematics.....	3 units
History.....	2 units
Greek	2 units
Elective	1 unit

LATIN-SCIENTIFIC.

Latin.....	4 units
English.....	3 units
Mathematics.....	3 units
History.....	2 units
Elective	3 units

SCIENTIFIC.

English	3 units
Mathematics	3 units
History	2 units
Science	2 units
Elective	5 units

For the Latin-Scientific Course the candidate may select his three elective units from any of those specified below.

To enter the Scientific Course the candidate must present: English, 3 units; Mathematics, 3 units; History, 2 units, and Science, 2 units, making a total of 10 units. In addition, he must offer five units from those specified below.

The following are the numbers of units which can be accepted as elective in each subject:

English	Minimum 3 units	Maximum 4 units
Latin	2	4
Greek	2	
German	1	3
French	1	3
Spanish	1	2
Mathematics	3	4
*History	2	4
Physics (Theoretical and Practical)		1
Chemistry (Theoretical and Practical)		1
Botany, Physical Geography, Zoology and Biology		1
Drawing (Mechanical)		1

If a candidate for admission cannot present the total of fifteen units he may be allowed to enter the Freshman Class, provided his deficiencies do not amount to more than two units, which deficiencies must be confined to no more than two subjects. All entrance conditions must be made up as soon as possible, but not later than the end of the Sophomore year.

Blank forms for certification will be furnished approved High Schools and Academies by the College. Certification by the Principal is to be made on these blank forms.

Candidates for entrance to an advanced class in any of the courses are required to pass examinations upon all studies of the course, up to the point at which they seek admission.

The College Faculty will not make itself responsible for providing instructions in subjects in which candidates for matriculation may be conditioned, except in Latin and Greek, and in these branches only in so far as the candidate shows

* It is suggested that students offer as a minimum in History, History A, Ancient History; History D, American History and Civil Government.

diligence in his work, and a proper appreciation of the instruction provided.

REQUIREMENTS FOR ADMISSION BY DEPARTMENTS.

Mathematics:

1. Arithmetic, including the Metric System (one-half unit). Wentworth and Hill's High School Arithmetic is recommended for preparation.
2. Algebra (one and a half units). General Principles and Equations through Quadratics. Wells' New Higher Algebra is recommended for preparation.
3. Plane Geometry (one unit). Five books. Wentworth's Plane Geometry is recommended for preparation.
4. Advanced Algebra (one-half unit). Simultaneous equations of the second degree, the theory of quadratic equations, zero and infinity, indeterminate equations, ratio and proportion, variations, progressions, the binomial theorem for positive, negative and fractional exponents, undetermined coefficients, logarithms, compound interest and annuities, permutations and combinations.
5. Solid Geometry (one-half unit). Wentworth's Solid Geometry. Solution of original problems.

English:

The requirements in English include a course in Composition and Rhetoric (1 unit), the reading and study of classics on the regular list of College Entrance Requirements in English (2 units).

English Grammar and Composition:

The first object requires instruction in grammar and composition. English grammar should ordinarily be reviewed in the secondary school; and correct spelling and grammatical accuracy should be rigorously exacted in connection with all written work during the four years. The principles of English composition governing punctuation, the use of words, paragraphs, and the different kinds of whole composition, including letter-writing, should be thoroughly mastered; and

practice in composition, oral as well as written, should extend throughout the secondary school period. Written exercises may well comprise narration, description, and easy exposition and argument based upon simple outlines. It is advisable that subjects for this work be taken from the student's personal experience, general knowledge, and studies other than English, as well as from his reading in literature. Finally, special instruction in language and composition should be accompanied by the concerted effort of teachers in all branches to cultivate in the student the habit of using good English in his recitations and various exercises, whether oral or written.

Literature:

The second object is sought by means of two lists of books, headed respectively Reading and Study, from which may be framed a progressive course in literature covering four years. In connection with both lists, the student should be trained in reading aloud and encouraged to commit to memory some of the more notable passages both in verse and in prose. As an aid to literary appreciation, he is further advised to acquaint himself with the most important facts in the lives of the authors whose works he reads and with their place in literary history.

(a) *Reading.* The aim of this course is to foster in the student the habit of intelligent reading and to develop a taste for good literature, by giving him a first-hand knowledge of some of its best specimens. He should read the books carefully, but his attention should not be so fixed upon details that he fails to appreciate the main purpose and charm of what he reads.

FOR STUDENTS ENTERING 1922-1923.

With a view to large freedom of choice, the books provided for reading are arranged in the following groups, from each of which at least two selections are to be made, except as otherwise provided under Group I.

GROUP I. CLASSICS IN TRANSLATION. The Old Testament, comprising at least the chief narrative episodes in Genesis, Exodus, Joshua, Judges, Samuel, Kings, and Daniel, together with the books of Ruth and Esther; the Odyssey, with the

omission, if desired, of Books I, II, III, IV, V, XV, XVI, XVII; the Iliad, with the omission, if desired, of Books XI, XIII, XIV, XV, XVII, XXI; the Aeneid. The Odyssey, Iliad, and Aeneid should be read in English translations of recognized literary excellence.

For any selection from this group, a selection from any other group may be substituted.

GROUP II. DRAMA. Shakespeare: A Midsummer Night's Dream; The Merchant of Venice; As You Like It; Twelfth Night; The Tempest; Romeo and Juliet; King John; Richard the Second; Richard the Third; Henry the Fifth; Coriolanus; Julius Cæsar;* Macbeth;* Hamlet.*

GROUP III. PROSE FICTION. Malory: Morte d'Arthur (about 100 pages); Bunyan: Pilgrim's Progress, Part I; Swift: Gulliver's Travels (voyages to Lilliput and Brobdingnag); Defoe: Robinson Crusoe, Part I; Goldsmith: The Vicar of Wakefield; Frances Burney: Evelina; Scott's Novels, any *one*; Jane Austen's Novels, any *one*; Maria Edgeworth: Castle Rackrent or The Absentee; Dicken's Novels, any *one*; Thackeray's Novels, any *one*; George Eliot's Novels, any *one*; Mrs. Gaskell: Cranford; Kingsley: Westward Ho! or Hereward, the Wake; Reade: The Cloister and the Hearth; Blackmore: Lorna Doone; Hughes: Tom Brown's School Days; Stevenson: Treasure Island, or Kidnapped, or The Master of Ballantrae; Cooper's Novels, any *one*; Poe: Selected Tales; Hawthorne: The House of the Seven Gables, or Twice Told Tales, or Mosses from an Old Manse; a collection of short stories by various standard writers.

GROUP IV. ESSAYS, BIOGRAPHY, ETC. Addison and Steele: The Sir Roger de Coverley Papers or selections from The Tatler and The Spectator (about 200 pages); Boswell: Selections from the Life of Johnson (about 200 pages); Franklin: Autobiography; Irving: Selections from the Sketch Book (about 200 pages), or Life of Goldsmith; Southey: Life of Nelson; Lamb: Selections from the Essays of Elia (about 100 pages); Lockhart: Selections from the Life of Scott (about 200 pages); Thackeray: Lectures on Swift, Addison, and Steele in the English Humourists; Macaulay: Any *one* of the following essays: Lord Clive, Warren Hastings, Milton, Addison, Goldsmith, Frederic the Great, Madame d'Arblay;

Trevelyan: Selections from the Life of Macaulay (about 200 pages); Ruskin: Sesame and Lilies or selections (about 150 pages); Dana: Two Years Before the Mast; Lincoln: Selections, including at least the two Inaugurals, the Speeches in Independence Hall and at Gettysburg, the Last Public Address, the Letter to Horace Greeley, together with a brief memoir or estimate of Lincoln; Parkman: The Oregon Trail; Thoreau: Walden; Lowell: Selected Essays (about 150 pages); Holmes: The Autocrat of the Breakfast Table; Stevenson: An Inland Voyage and Travels With a Donkey; Huxley: Autobiography and selections from Lay Sermons, including the addresses on Improving Natural Knowledge, A Liberal Education, and A Piece of Chalk; a collection of Essays by Bacon, Lamb, De Quincey, Hazlitt, Emerson, and later writers; a collection of letters by various standard writers.

GROUP V. POETRY. Palgrave: Golden Treasury (First Series), Books II and III, with special attention to Dryden, Collins, Gray, Cowper, and Burns; Palgrave: Golden Treasury (First Series), Book IV, with special attention to Wordsworth, Keats and Shelley (if not chosen under *Study*); Goldsmith: The Traveller and The Deserted Village; Pope: The Rape of the Lock; a collection of English and Scottish ballads, as, for example, some Robin Hood ballads, The Battle of Otterburn, King Estmere, Young Beichan, Bewick and Grahame, Sir Patrick Spens, and a selection from later ballads; Coleridge: The Ancient Mariner, Christabel, and Kubla Khan; Byron: Childe Harold, Canto III or IV, and The Prisoner of Chillon; Scott: The Lady of the Lake, Marmion; Macaulay: The Lays of Ancient Rome, The Battle of Naseby, The Armada, Ivry; Tennyson: The Princess, or Gareth and Lynette, Lancelot and Elaine, and The Passing of Arthur; Browning: Cavalier Tunes, The Lost Leader, How They Brought the Good News from Ghent to Aix, Home Thoughts from Abroad, Home Thoughts from the Sea, An Incident of the French Camp, Hervé Riel, Pheidippides, My Last Duchess, Up at a Villa—Down in the City, The Italian in England, The Patriot, The Pied Piper, “De Gustibus”—, Instans Tyrannus; Arnold: Sohrab and Rustum and The Forsaken Merman; selections from American Poetry, with especial attention to Poe, Lowell, Longfellow, and Whittier.

Study.

This part of the requirement is intended as a natural and logical continuation of the student's earlier reading. Greater stress is laid upon form and style, the exact meaning of words and phrases, and the understanding of allusions. For this close reading the books are arranged in four groups, from each of which one selection is to be made.

GROUP I. DRAMA. Shakespeare: Julius Cæsar; Macbeth; Hamlet.

GROUP II. POETRY. Milton: L'Allegro, Il Penseroso, and either Comus or Lycidas; Tennyson: The Coming of Arthur, The Holy Grail, and The Passing of Arthur; the selections from Wordsworth, Keats, and Shelley in Book IV of Palgrave's Golden Treasury (First Series).

GROUP III. ORATORY. Burke: Speech on Conciliation with America; Macaulay: Speech on Copyright, and Lincoln: Speech at Cooper Union; Washington: Farewell Address, and Webster: First Bunker Hill Oration.

GROUP IV. ESSAYS. Carlyle: Essay on Burns, with a selection from Burns's Poem; Macaulay: Life of Johnson; Emerson: Essay on Manners.

Examination.

The examination will be divided into two parts, one of which (English) will be on grammar and composition, and the other (English 2) on literature.

In grammar and composition, the candidate may be asked to construe sentences, to parse individual words, and to correct mistakes in usage. The main test in composition will consist of one or more essays, developing a theme through several paragraphs; the subjects will be drawn from the books listed above under *Reading*, from the candidate's other studies, and from his personal knowledge and experience quite apart from reading. For this purpose several subjects, perhaps eight or ten, will be indicated, from which the candidate may make his own selections.

The examination in literature will include: (1) General questions designed to test such a knowledge and appreciation of literature as may be gained by fulfilling the requirements defined under *Reading* above. The candidate will be required

to submit a list of the books read in preparation for the examination, certified by the principal of the school in which he was prepared; but this list will not be made the basis of detailed questions: (2) More particular questions upon the content, form, and structure of the books prescribed for *Study*, and upon the meaning of such words, phrases, and allusions as may be necessary to an understanding of the works and an appreciation of their salient qualities of style. General questions may also be asked concerning the lives of the authors, their other works, and the periods of literary history to which they belong.

However accurate in subject-matter, no paper will be considered satisfactory if seriously defective in punctuation, spelling, or other essentials of good usage.

History.

1. Ancient History (one unit).

Special attention to Greek and Roman history, but including also a short introductory study of the more ancient nations and the chief events of the early Middle Ages, down to the death of Charlemagne (814).

2. Medieval and Modern European History (one unit).

From the death of Charlemagne to the present time.

3. English History (one unit).

4. American History and Civil Government (one unit).

The examination in history will be so framed as to require comparison and judgment on the pupil's part rather than mere memory. The examinations will pre-suppose the use of good text-books, at least 600 duodecimo pages of collateral reading, and practice in written work. Historical novels, plays or poems will not be accepted in fulfillment of the requirement of collateral reading. The methods of instruction which the examinations in History and Civil Government pre-suppose are substantially identical with those set forth in *A History Syllabus for Secondary Schools* (D. C. Heath & Co.); and the references for collateral reading given in that manual may be taken as indications of the kind of collateral reading that should be done.

These requirements are the same as those of the College Entrance Examination Board in History, *a, b, c, d.*

FOREIGN LANGUAGE.

Latin.

I. Amount and range of the reading required.

- (1) The Latin reading, without regard to the prescription of particular authors and works, shall be not less *in amount* than Cæsar, Gallic War, I-IV; Cicero, the orations against Cataline, for the Manilian Law and for Archias; Vergil, Aeneid, I-VI.
- (2) The amount of reading specified above shall be selected from the following authors and works: Cæsar (Gallic War and Civil War) and Nepos (Lives); Cicero (orations, letters, and De Senectute) and Sallust (Cataline and Jugurthine War); Vergil (Bucolics, Georgics, and Aeneid) and Ovid (Metamorphoses, Fasti, and Tristia).

II. Scope of the Examinations.

- (1) *Translation at Sight.* Candidates will be examined in translation at sight of both prose and verse. The vocabulary, constructions, and range of ideas of the passages set will be suited to the preparation secured by the reading indicated above.
- (2) *Prescribed Reading.* Candidates will be examined also upon the following prescribed reading:

In 1922. Cicero, orations for the Manilian Law, and for Archias Vergil, I, II, and either IV or VI at the option of the candidate.

In 1923, 1924, and 1925. Cicero, the third oration against Cataline and the orations for Archias and Marcellus; Vergil, Aeneid, II, III, and VI.

Accompanying the different passages will be questions on subject-matter, literary and historical allusions, and prosody. Every paper in which passages from the prescribed reading are set for translation will contain also one or more passages for translation at sight; and candidates must deal satisfactorily with both these parts of the paper, or they will not be given credit for either part.

- (3) *Grammar and Composition.* The examinations in grammar and composition will demand thorough knowledge of all regular inflections, all common irregular forms, and the ordinary syntax and vocabulary of the prose authors read in school, with ability to use this knowledge in writing simple Latin prose.

SUBJECTS FOR EXAMINATION.

Latin 1, 2, 4, and 5 are counted as one unit each, 3 as two units, and 6 as one-half unit; but 3 has no assigned value unless offered alone; 1, 2, and 6 have no assigned values unless offered with 4 and 5, and in no case is the total requirement to be counted as more than four units.

1. Grammar: The examination will presuppose the reading of the required amount of prose (see I, 1 and 2), including the prose works prescribed (see II, 2).

2. Elementary Prose Composition: The examination will presuppose the reading of the required amount of prose (see I, 1 and 2), including the prose works prescribed (see II, 2).

3. Second Year Latin: It will presuppose reading not less in amount than Cæsar, Gallic War, I-IV, selected by the schools from Cæsar (Gallic War and Civil War), and Nepos (Lives); but the passages set will be chosen with a view to sight translation. The paper will include easy grammatical questions and some simple composition.

4. Cicero (orations for the Manilian Law and for Archias) and Sight Translations of Prose: The examination will presuppose the reading of the required amount of prose (see I, 1 and 2).

5. Latin 1, 2, and 4 combined: Vergil (Aeneid I, II and either IV or VI, at the option of the candidate) and Sight Translation of Poetry: The examination will presuppose the reading of the required amount of poetry (see I, 1 and 2).

6. Advanced Prose Composition.

Greek.

1. Grammar (one unit).

A thorough knowledge of declensions and conjugation of regular verbs. White's First Greek Book is recommended for preparatory study.

2. Reading (one unit).

Four books of Xenophon's *Anabasis* and Prose Composition. For one book of *Anabasis*, one book of Homer may be substituted.

German.

- A. First year, one unit.
Elementary German.
- Aa. Second year, one unit.
Continuation of Elementary German.
- B. Third year, one unit.
Intermediate German.
- C. Fourth year, one unit.
Advanced German.

Courses A and Aa may be absolved as German I of the College curriculum.

Course B may be absolved as German II of the College curriculum.

French.

- A. First year, one unit.
Elementary French.
- Aa. Second year, one unit.
Continuation of Elementary French.
- B. Third year, one unit.
Intermediate French.
- C. Fourth year, one unit.
Advanced French.

Courses A and Aa may be absolved as French I of the College curriculum.

Course B may be absolved as French II of the College curriculum.

Spanish.

- A. First year, one unit.
Elementary Spanish.
- Aa. Second year, one unit.
Continuation of Elementary Spanish.

Courses A and Aa may be absolved as Spanish I of the College curriculum.

The above courses are based upon the recommendations contained in the Report of the Committee of Twelve which have been adopted by the College Entrance Examination Board.

N. B.—The courses in German and French as offered in the College are found on pages 44 and 45 of this catalogue.

SCIENCE.

For the required units in Science, Physics and Botany are recommended, but Chemistry, Zoology, Physiology and Physical Geography may be offered. About one-half of the time given to a subject should be devoted to laboratory work, two periods of which are counted as equivalent to a prepared recitation.

EXAMINATIONS FOR ADMISSION.

The regular examinations for admission are given according to the following schedule:

1922.

TUESDAY, SEPT. 20—9.00 a. m., Examinations for conditioned students.

WEDNESDAY, “ 21— College opens for regular students.

1923.

WEDNESDAY, MAY 30—9.00 a. m., Latin; 2.30 p. m., Greek.

THURSDAY, “ 31—9.00 a. m., English and History;
2.30 p. m., Science.

FRIDAY, JUNE 1—9.00 a. m., Mathematics.

RE-EXAMINATIONS AND EXAMINATIONS OF CONDITIONED STUDENTS.

Students having examinations to pass or conditions to make up will present themselves for examination according to the schedule of examinations for admission. Those failing to report on the appointed days will be held for their conditions and will not be allowed to proceed with their studies in a higher class.

Candidates for admission to any higher class must be examined in all previous studies of the class they enter.

FACULTY ADVISER.

Every student on entering the college shall be assigned by the President of the college to some member of the Faculty, who is to act as his adviser, and give him helpful counsel relating to his college life.

For the assignment of students to classes at the opening of each term, a Committee, consisting of three members of the Faculty, with the Secretary of the Faculty as adviser, will receive all statements and credentials of entrance examinations, and make out all student schedule cards, on which shall be included all back work in which the student is deficient, and shall set the limit of time allowed for making up conditions.

All students on arrival at college are required to report to this Committee, bringing with them their credentials, if these have not already been submitted, in advance.

TERMS AND VACATIONS.

The Annual Commencement of the College takes place on the second Wednesday in June.

The collegiate year begins on the third Wednesday in September and ends on the second Wednesday in June. The year is divided into two equal terms.

The regular vacations extend from the Third Wednesday in June to the third Wednesday in September, from the 23rd of December to the first Monday in January, both inclusive, and from the Wednesday before Easter through to Wednesday after Easter. The day of Public Thanksgiving, appointed by the Governor of Maryland, or by the President of the United States, is also a holiday.

DEGREES.

The following academic degrees are conferred by the College:

1. The degree of *Bachelor of Arts*, conferred after the satisfactory completion of the Classical course.

2. The degree of *Bachelor of Arts*, conferred in like manner upon graduates in the Latin-Scientific course.

3. The degree of *Bachelor of Science* conferred upon graduates in the Scientific course.

4. The degree of *Master of Arts*, conferred after the completion of the Post-Graduate course, and upon the recommendation of the Faculty.

Candidates for the degree of Master of Arts are required to select at least two of the departments of study specified in this catalogue, and under the direction of the professors of these departments to pursue their studies for the two years of the Post-Graduate course, submitting to them such essays, or undergoing such oral or written examination, as may be required to test their qualifications for this degree.

Any graduate of the college who shall have been admitted a member of one of the learned professions, or who shall have obtained a diploma from any Law, Medical, Theological, or Scientific school, shall be entitled to the Master's degree, three years after his graduation. The degree of Master is not conferred *in course*, but only on evidence of proficiency in advanced studies as above indicated.

HONORS.

First and second honors on graduation day are given to those students, respectively, who shall have obtained the highest and next highest average mark in all studies from the beginning of the Sophomore year.

REGULATIONS FOR ACADEMICAL COSTUMES.

All candidates for degrees are required to wear, on Commencement Day, a black silk or stuff gown of the shape and pattern adopted by the Board of Visitors, also an academical cap of the usual pattern.

Graduates are also entitled to wear hoods of the following description:

B. A.—A hood of black stuff, lined with black silk, edged on the inside with a narrow border of old gold silk.

B. Sc.—A hood, as above, edged on the inside with cardinal silk.

M. A.—A hood of black silk with a full lining of old gold silk.

D. Sc.—A hood of scarletcloth with a full lining of pale yellow silk.

L. H. D.—A hood of scarlet cloth with a full lining of olive silk.

LL. D.—A hood of scarlet cloth with a full lining of cardinal silk.

D. D.—A hood of scarlet cloth with a full lining of white silk.

Members of the Faculty of St. John's College, who have been graduated from some other college or university, are entitled, by order of the Board of Visitors and Governors, to wear the same gowns and hoods, respectively, indicative of their degree, as those who are graduates of this college.

LITERARY SOCIETIES.

There are two Literary Societies (the Philokalian and the Philomathean) among the students, which afford opportunities for the cultivation of composition and debate. An oration is usually delivered before the societies, upon the Monday and Tuesday preceding Commencement Day, by some gentleman selected by them.

No student shall be graduated from the college who shall not have made satisfactory adjustment of his financial obligations to the literary society of which he has been a member.

The Collegian, a weekly newspaper, is published by students of the College. Those students who serve upon the *Collegian* board, and satisfactorily fulfill their obligations, are awarded hours of credit in the English department.

PUBLIC WORSHIP AND RELIGIOUS INSTRUCTION.

The exercises of each day are opened with the reading of the Scriptures and prayer in the College Chapel.

During the period of a student's residence at college every opportunity will be afforded for the fullest development of the Christian character. The study of Christian Evidence is assigned an important part in the college curriculum. All students are required to attend public worship on Sunday and at other times at such church as their parents may direct. Arrangements have been made by the college authorities with the clergy of the several denominations of Annapolis, by which students may enjoy the advantages of special instruction in the tenets of their respective churches.

EXAMINATION.

Written examinations on the studies of the entire term are held at the close of each term. The marks of these examinations are combined with the marks for daily recitations, to make up the student's standing for the term. Any student, whose examinations at the close of a year shall evince an incapacity on his part to pursue with advantage the studies of the class to which he belongs, will have offered to him on the first day of the next year, an opportunity to retrieve his lost position, and in default of doing so, will be reduced to a lower class.

A student deficient in knowledge, or persistently neglectful of any study, is at any time liable to be reduced to a lower class in that study.

No special examination is granted except upon a physician's certificate of sickness on the day of examination, or other cause which the Faculty may accept as adequate ground.

MERIT ROLL.

A merit roll is kept, and each recitation is noted on the grade of from A to E. In order to pass from a lower to a higher class in any study, each student must obtain an average of D on the recitations and on the examinations of the whole session.

Provided also, that the examination mark in that study be not less than D. In all examinations granted under special conditions, a mark of 70% is required as a satisfactory or passing mark.

(1) Students failing to obtain a term average of D or over, for the first term in any subject will not be permitted to take the term examination in that subject, but may take it in June.

(2) A student failing to obtain a term average, in recitation, of D or over for the second term will not be permitted to take the second term examination unless his yearly average in that subject shall be D or over.

(3) A student denied a regular examination for reasons stated above, may have the privilege of taking an examination at the time set for re-examinations in June or September of the following year, and shall then be required to make an examination grade of 70 per cent. or over in order to pass.

Demerits will be given for absences not excused, and for violations of college regulations. Reports respecting conduct and scholarship will be sent every month to the parents or guardians of students. Whenever any student of the college has 40 demerits for one month, 75 demerits for any term, or 150 for the year, he will be subject to suspension for a period of from two to six weeks. Members of the Freshman Class are allowed 100 demerits for the first term, and a maximum of 200 for the whole year. Day students are allowed 60 per cent of the number allowed boarding students.

ATHLETIC ELIGIBILITY.

Each captain of any athletic team shall submit at the faculty meeting each week a list of candidates for his team.

This list shall be submitted on a form provided for that purpose and shall contain a list of the subjects each student claims to be taking.

The members of the faculty shall enter grades of satisfactory or unsatisfactory against such names as may appear on their class lists, these grades to be entered at the time of each regular faculty meeting, and to be counted from Tuesday to Tuesday.

A student shall be adjudged ineligible for athletics when his record fails to show a grade of satisfactory in twelve hours work, a grade of three in a subject being considered satisfactory.

The Secretary of the Faculty shall give to each captain a list of those who are ineligible to play on his team and a similar list to the Director of Athletics.

The following rules have been adopted :

1. Students who have absences due to athletic trips must see their instructors as soon as possible after returning and have a time set for making up their work.

2. In cases where this has been done, the student is not to be counted deficient until opportunity to make up lost recitations has been afforded.

3. Students absent on sick report must arrange to make up lost work immediately after returning and may be marked satisfactory if, in the judgment of the instructor his past work warrants this course.

4. Students who have been assigned work to make up and who fail satisfactorily to do so, will be marked unsatisfactory in the subject in question for the following week.

5. If a player is placed on the "Black List" no one but the Secretary of the Faculty is authorized to remove his name from the list.

THE COLLEGE YOUNG MEN'S CHRISTIAN ASSOCIATION.

The College Young Men's Christian Association is an important factor in the religious and moral life of the student body. The Student Cabinet has charge of the active work and the direction of the Association. In addition to the regular weekly meetings on Wednesday evenings, there is an assemblage in the Chapel at 9.00 A. M., when an address is delivered by some well-known speaker on a topic bearing upon some important phrase of college life. The Glee, Mandolin and Dramatic Clubs are also under the direction of this organization.

A comfortable suite of rooms is provided in the College buildings for the use of the Association.

Parents and Guardians are, therefore, urged to encourage the students to become members of the "Y" as soon as possible after their arrival at the College.

DEPARTMENTS.

The course of instruction embraces the departments following:

I. *Mental and Moral Science* — Including Metaphysics.

II. *Pedagogy* — Including History of Education.

III. *History and Economics* — Including Mediæval, Modern and Constitutional History; and Economics, Politics and Sociology.

IV. *English* — Including English and American Literature, English Language, Composition, Debating and Oratory.

V. *Ancient Languages* — Including the Greek and Latin Languages; Antiquities and Mythology, and the History of Greek and Roman Literature.

VI. *Modern Languages* — including the French, German and Spanish Languages and Literature.

VII. *Mathematics* — Including Pure Mathematics, Mechanics, and Surveying.

VIII. *Physics and Mechanical Drawing*.

IX. *Chemistry*.

X. *Biology*.

XI. *Military Science and Tactics* — Including Topography, Field Engineering, Military Law, Military History, Organization, Military Courtesy and Discipline, Rifle Shooting, First Aid to the Injured, Minor Tactics, Liaison, Signaling, Administration, Hippology, Drill and Physical Training.

XII. *Sanitation and Hygiene*.

DEPARTMENT OF MENTAL AND MORAL SCIENCE.

Ethics — The study of ethics, which extends through the Senior year, embraces the study of psychology, also the consideration of pure morality and positive authority, the latter including civil government, with the doctrine of the State, divine governmental and family government.

DEPARTMENT OF EDUCATION.
(Open to Juniors and Seniors.)

I. History of Education.

Educational system and ideals of the Greeks and Romans; the systems of the Middle Ages and beginnings of modern education.

Two hours throughout the year. Wednesday, 9.00 o'clock; Thursday, 11.00 o'clock.

II. High School Organization and School Management.

This course includes, Class Management; School discipline; Student activities; Differentiation of courses; Electives; The Junior High School; Programme making; Supervised study; School hygiene; Community relations; and other matters pertaining to the Secondary School.

One hour throughout the year. Fridays, 9.00 o'clock.

III. Educational Psychology.

Principles of education, including the study of Instincts; Habits; Sensation; Imagination; Memory; Attention, and Interest.

Two hours. Second semester.

IV. Principles of Secondary Teaching and Special Methods.

Technique of Instruction and special methods as applied to subjects taught in the High School curriculum.

Two hours throughout the year. Mondays, 11.00 o'clock; Tuesdays, 11.00 o'clock.

Students who complete satisfactorily the above courses will be permitted to teach in the High Schools of Maryland three years without examination.

DEPARTMENT OF HISTORY AND ECONOMICS.

Professor C. W. Stryker.

History I. Mediaeval European History.

This course covers the period from the decline of the Roman Empire to the eighteenth century. Topical treatment, with reading in primary and secondary sources is accompanied by map work, lectures and quizzes.

Required of all Freshmen. Three hours weekly through the year. (Monday, Wednesday, Friday, 11 A. M.)

History II. Modern European History.

This course is a continuation of History I until the present time, and History I is a prerequisite. Method as above.

Required of all Sophomores. Two hours weekly through the year. (Tuesdays and Thursdays, 8 A. M.)

History III. History of the United States.

An advanced course in United States History, embracing the political, economic, and social development of the United States. Topical method with assigned readings; reports and quizzes. This course is given in 1921-1922 and on alternate years thereafter. History I and History II are prerequisites for this course.

Elective for Juniors and Seniors. Two hours weekly. (Wednesday, 10 A. M.; Friday, 12 M.)

History IV. Constitutional History of England and the United States.

This course traces the development of English government and political ideas to the Revolution of 1688 in the first semester, as the foundation of American political institutions. In the second semester the course deals with the development of the American Constitution. This is a lecture course with parallel readings and semester reports on assigned topics. History I and History II are prerequisite. This course alternates with History III.

Elective for Juniors and Seniors. Two hours weekly. (Wednesdays, 10 A. M.; Fridays, 12 M.)

Economics I. Elementary Course in the Theory of Economics.

A course in the chief phases of economic development and the essential laws and concepts of economics. Text-book.

Required of all Juniors. Two hours weekly through the year. (Tuesdays, 11 A. M.; Thursdays, 10 A. M.)

Economics II.

A lecture course on some of the important economics, social, and political problems of the day. Economics I is a prerequisite for this course.

Elective for Seniors. Two hours weekly. (Tuesdays, 9 A. M.; Thursdays, 11 A. M.)

DEPARTMENT OF ENGLISH.

Professor S. S. Handy.

The following courses are offered annually:

English I.

ADVANCED COMPOSITION — Theme writing, based on specimens of exposition, description and narration.

FIRST SEMESTER — Three hours a week. Prescribed for all Freshmen.

PRINCIPLES OF ARGUMENTATION — Practice in argumentative writing and in debating.

SECOND SEMESTER — Three hours a week. Prescribed for all Freshmen.

English II.

The history of English Literature in outline. The growth of the language and the development of the literature from the Anglo-Saxon period to the present are sketched in lectures, and some of the more important works are assigned for reading by the students and discussion in class. Written reports are required from time to time. Two hours a week. Prescribed for all Sophomores.

English III.

Shakespeare. The leading plays will be read, reported on, and carefully discussed in class. Special attention will be given to the development of Shakespeare's dramatic art and to his place in Elizabethan drama.

First semester; two hours a week. Open to Juniors and Seniors.

American Literature. Lectures, discussions, reports and assigned readings. A survey of American literature from the colonial period to the end of the nineteenth century. Emphasis will be placed upon the expression of national and sectional ideals, and to the development of the more important types of contemporary literature.

Second semester, two hours a week. Open to Juniors and Seniors.

English IV.

Prose Fiction. The course deals with the origins of the novel in mediæval romance, its development through the Elizabethan period, and its modern form from Richardson to the present. The course closes with a survey of the chief novel writers of the day.

First semester, two hours a week. Open to Juniors and Seniors.

The Romantic Poets. Several of the romantic poets of the earlier nineteenth century (Wordsworth, Byron, Shelley and Keats) will be studied. The beginnings of the romantic movement will be traced. Lectures, reports and assigned readings.

Second semester, two hours a week. Open to Juniors and Seniors.

Logic.

The study of formal logic. Recitations and class-room exercises. Two hours a week the first semester.

Elocution.

The principles of public speaking are studied, and practices in the delivery of speeches is given. Two hours a week the second semester. Prescribed for all Juniors.

Public Speaking.

Practice in the delivery of original speeches, both prepared and extemporaneous. Training in the composition as well as in the delivery of speeches. One hour a week. Prescribed for all Seniors.

DEPARTMENT OF ANCIENT LANGUAGES.

*Professor White.**Professor Rippere.*

LATIN LANGUAGE AND LITERATURE.

Latin.

The study of Latin extends through the Classical and the Latin-Scientific Courses, being required in the Freshman and Sophomore years, and elective in the Junior and Senior years.

In the work of the Freshman year special attention is given to the structure of the Latin sentence, as illustrated in select portions of Livy and Cicero, and as unfolded through frequent exercises in Latin prose composition. But the chief object of the courses is the study of Latin Literature, through a critical reading of selections from the most important authors in historical succession.

Latin I. Three hours per week. Prof. Rippere.

Livy, Books XXI and XXII. Exercises in prose composition and sight reading. First term.

Terence, Phormio; Plautus, Trinummus. Prose composition. Second term.

Latin II. Three hours per week. Prof. White.

First term, Odes and Epodes of Horace; Mythology and Prose Composition.

Second term, Letters of Cicero, Collateral Reading and reports on Special Topics and Prose Composition.

Latin III. Two hours per week. Prof. Rippere.

Suetonius, Lives of the Emperors. First term.

Juvenal, Satires. Second term.

Special attention will be paid to the literary value and the historical setting of the books. Also collateral readings and reports on special topics.

Latin IV. Two hours per week. Prof. Rippere.

Tacitus' Annals, Books I-IV.

Lucretius, De Rerum Natura.

Lectures on Roman History to explain the upbuilding of the principate, and on the outlines of Greek philosophy will be given. Collateral readings will be assigned.

DEPARTMENT OF GREEK LANGUAGE AND LITERATURE.

Professor White.

Greek—The student will have daily exercise, both orally and at the blackboard, in translating into Greek. Such a drill will be given upon every point of grammar, that this subject will be thoroughly mastered. Lectures will be given in the Freshman and Sophomore classes upon Greek Mythology, Manners and Customs, and History of Greek Literature and Greek Art. During the Sophomore and Junior years, daily practice will be had in reading at sight. In addition to the prescribed course, one weekly exercise, illustrative of the style and the vocabulary of the author read, will be required. An advanced course may also be pursued in the Senior year.

Greek I. Freshman Class. Four hours per week.

Homer's Iliad and Odyssey, first term.

Xenophon's Memorabilia, second term.

Prose Composition throughout the year.

Greek II. Sophomore year. Three hours per week.

Herodotus, Books VI and VII, first term.

Plato's Apology and Crito, second term.

Prose Composition throughout the year.

Greek III. Three hours per week.

Demosthenes: De Corona, first term.

Aristophanes and Euripides, second term.

Greek IV. Two hours per week.

Sophocles, and lectures on the Attic Theatre, first term.

Aeschylus; Review of Greek Literature; second term.

DEPARTMENT OF MODERN LANGUAGES.

Professor von Schwerdtner.

A student in the Classical or the Latin Scientific Course may satisfy the requirements for graduation in Modern Languages by two courses in Modern Languages.

A student in the Scientific Course may satisfy the requirements for Modern Languages by taking three courses in Modern Languages, which may be in any two Modern Languages.

German I. Three hours per week.

Drill upon German pronunciation. Study of colloquial sentences, and the rudiments of German grammar. Reading of, and practical exercises on, some German texts.

German II. Three hours per week.

Study of, and drill upon, the more difficult parts of German grammar. Practical exercises, orally and in writing. Reading of prose and poetry.

French I. Three hours per week.

Drill in French pronunciation. Study of, and exercises in, the rudiments of French grammar. Reading of, and practical exercises on, some French texts. Writing from dictation.

French II. Three hours per week.

Practice in giving French paraphrases and abstracts, orally and in writing. Continued study of the French grammar. Dictation. Reading of texts of ordinary difficulty, some of them in dramatic form.

French III. Two hours per week.

Open to students who have completed French II or its equivalent and who understand spoken French.

Reading of representative works in prose and poetry. Outline of French Literature. Writing in French of themes upon assigned subjects. Private reading.

French IV. Two hours per week.

A course in reading Scientific French for students who have had French II or its equivalent.

Spanish I. Three hours per week.

A practical course in Spanish, corresponding in aim and method to French I or German I.

Spanish II. Three hours per week.

A continuation course in Spanish I.

Reading matter will preferably be selected from Spanish-American literature.

Spanish III. Two hours per week.

Open to students who have completed Spanish II or its equivalent and who understand spoken Spanish.

Reading of representative works in prose and poetry.

Outline of Spanish Literature. Writing in Spanish of themes upon assigned subjects. Private reading.

DEPARTMENT OF MATHEMATICS.

Professor Waddell.

Professor Gladden.

Mathematics I. Three hours per week.

Algebra, Chapters 19-41 of Wells' Text-Book in Algebra. Simultaneous equations of the second degree, the theory of quadratic equations, zero and infinity, indeterminate equations, ratio and proportion, variations, progressions, the binominal theorem for positive, negative and fractional exponents, undetermined coefficients, logarithms, compound interest and annuities, permutations and combinations.

Geometry. Wentworth-Smith's Solid Geometry. Solution of original problems.

Mathematics II. Three hours per week.

This course includes Plane and Spherical Trigonometry and Analytic Geometry.

Text-Books: Plane and Spherical Trigonometry, Wells; Analytic Geometry, Nichols.

Mathematics III. Three hours per week.

This is a course in the Differential and Integral Calculus.

Text-Book: Differential and Integral Calculus, Nichols.

Descriptive Geometry. Three hours per week one term.

Text-Book: *Descriptive Geometry*, Church and Bartlett.

Surveying. Three hours per week, one term.

This course includes land, topographical, railway and mining surveying, the use of instruments and practical exercises in the field.

Text-Book: *Plane Surveying*, Raymond.

Mechanics. Three hours per week.

Text-Book: *Analytical Mechanics*, Miller and Lilly.

DEPARTMENT OF CHEMISTRY.

Professor B. V. Cecil.

- I. *General Chemistry*—This course consists of three hours of lecture, demonstration and quiz, and one laboratory period each week during year. The object of the course is to teach methods of scientific study in preparation for work in advanced Chemistry, and fundamental principles, laws, theories, reactions, Stoichiometry in connection with the description of the metallic and non-metallic elements are taught. Freshman and Sophomore Years, 4 hours.
- II. *Qualitative Analysis*—The aim of this course is to give the student the necessary and thorough laboratory training and manipulation methods, also a clear knowledge of chemical reactions required for identification of the elements and their compounds. Emphasis is put upon the study of advanced theories of solutions and the laws of "Mass Action." Lectures and laboratory work three periods each week throughout the year. Prerequisite, Chemistry I.
- III. *Quantitative Analysis*—In this course the student is made familiar with the most recent methods for the more common quantitative determinations, including the fundamental operations of gravimetric and volumetric analysis. Lectures and laboratory work three periods each week throughout the year. Prerequisites, Chemistry I, II.
- IV. *Organic Chemistry, Preparation and Study of Organic Compounds*—This course is required for entrance into Medical Course in all universities, and is highly recommended to the general student also because of its intimate

relations to Chemistry of daily life, and carries with it a most interesting course in Inorganic Preparations. Two lectures and two laboratory periods throughout the year. Prerequisite, Chemistry, I, II.

V. *Physical Chemistry*—This course consists of three hours lecture and quiz, and two laboratory periods for one year. The intention of the course is to apply the modern physico-chemical explanation to the present-day theories of solution, chemical equilibrium, electrical conductivity and electromotive force and mass action. Prerequisite, Courses I, II, III, IV.

VI. *Industrial Chemistry*—This course is arranged for the benefit of those students who are interested in the application of the chemical processes to the commercial arts and will include special work in the analysis of food, water, steel and selected work in Physiological Chemistry. Lectures and laboratory work three periods each week throughout year. Prerequisites, Courses I, II, III.

DEPARTMENT OF PHYSICS.

Professor Scarborough.

Physics I.

Three hours recitation, two hours laboratory. Credit, four hours. Junior year. Preparation—Math. II required and Physics C recommended. Text-books—Kimball's College Physics and Ames and Bliss' A Manual of Experiments in Physics.

First Term—

Mechanics—General principles, statics, kinetics of a particle, rotation of a rigid body, universal gravitation; Liquids and Gases—fluids at rest, fluids in motion; properties of matter and its internal forces.

Wave Motion and Sound—Wave motion, sound characteristics, doppler principle, interference, vibration of strings, columns of gases, rods and plates, musical relation of pitch.

Heat—Thermometry, expansion, calorimetry, mechanical equivalent of heat, transmission of heat, change of state, heat engines, radiation and absorption.

Second Term—

Light—Photometry, reflection and refraction, dispersion of light, optical instruments, analysis of light, color, interference, diffraction, polarized light, electricity and light.

Magnetism—Properties, laws of force, terrestrial magnetism, magnetic induction, influence of medium.

Electricity—Electrification, induction, potential, condensers and capacity, electric discharge, electric current, chemical effects of current, battery cells, fall of potential, energy, heating effect and magnetic effect of currents, electro-magnetic induction, dynamo electric machines and motors, electric oscillations and waves, electric discharge through gases, radioactivity.

Physics II.

Two hours a week throughout the year. This course consists of lectures and recitations. Preparation—Physics I. The text for this course will be announced at the beginning of the scholastic year. This course is designed to give the student a detailed knowledge of direct and alternating currents and includes magnetism, magnetisation, magnetic fields, theory of magnetism, magnetic induction, magnetic circuits, voltaic electricity, batteries, resistance, galvanometers, ammeters, voltmeters, work and power, development of heat, operation of the dynamo as a generator, as a motor, power losses in dynamos, efficiency, ratings, station equipment, storage batteries, electric distribution and wiring, lighting.

 DEPARTMENT OF DRAWING.

Professor Scarborough.

Drawing I.

Drawing practice with instruction in the use of instruments embracing free-hand lettering; standard conventions; geometrical construction; isometric and cabinet projections; orthographic projections; sections; intersection of surfaces; development; special conventions and processes including line-shading, screw-threads, bolts, nuts, etc.; free-hand working sketches along with complete notes of the year's work and detail drawings of machine parts from models.

Text-Book: Tracy's Introductory Course in Mechanical Drawing with additional notes.

Freshman six hours (counts three).

Drawing II.

A continuation of working drawings from models accompanied by free-hand sketches made by the student; tracing; blue printing; topography and map drawing.

Sophomore six hours (counts three).

Text-Books: I. C. S. Pamphlet on Machine Design, Part I.

DEPARTMENT OF BIOLOGY.

Professor Ridgely.

Biology I.—General Biology, an introduction to the Biological Sciences; requirement for the study of Medicine. Chemistry and Physics required for admission. Text-Books: Elementary Biology, Parker, published by Macmillan; Biology of the Frog, Holmes, published by Macmillan. Lectures, recitations, and laboratory exercises. Four hours credit. Laboratory fee, \$5.00 a term.

Biology II.—Advanced Biology, Zoology; Comparative Anatomy of the Vertebrates and Embryology; or, Botany; Plant Morphology and Plant Physiology. Biology I required for admission to Biology II. Laboratory exercises, lectures, and conferences. Three hours credit. Laboratory fee, \$5.00 a term. Students who intend to pursue the professional study of medicine are advised to take both Biology I and II.

DEPARTMENT OF PHYSICAL EDUCATION, SANITATION AND HYGIENE.

Professor Marcy

Advanced Physiology, Heredity and Environment.

I Division.

General Hygiene.

Individual Hygiene.

Group Hygiene.

Principles of Physical Training.

II Division.

Health Conference.

Sanitary Surveys.

First Aid.

DEPARTMENT OF MILITARY SCIENCE AND TACTICS.

*Lt. Col. G. L. Townsend.**Captain O'Keefe.*

A senior unit of the Reserve Officers' Training Corps is established and conducted under the regulations of the War Department, which are agreed to by the college authorities.

An officer of the Regular Army is detailed by the War Department as Professor of Military Science and Tactics.

This officer also performs the duties of Commandant of Cadets. Another officer and two non-commissioned officers of the Regular Army are detailed by the War Department as assistants.

RESERVE OFFICERS' TRAINING CORPS.

GENERAL PRINCIPLES.

Object. The primary object of the Reserve Officers' Training Corps is to provide systematic military training at civil educational institutions for the purpose of qualifying selected students of such institutions as reserve officers in the military forces of the United States. It is intended to attain this object during the time that students are pursuing their general or professional studies with the least practicable interference with their civil careers, by employing methods designed to fit men physically, mentally and morally for pursuits of peace as well as pursuits of war. It is believed that such military training will greatly aid in the development of better citizens. Educational institutions maintain units of the Reserve Officers' Training Corps in order that in time of national emergency there may be instantly available a large number of educated men, physically efficient and trained in the fundamentals of military science and tactics and fitted to lead intelligently the units of the armies upon which the safety of the country will depend. The extent to which this object is accomplished will be the measure of the success of the Reserve Officers' Training Corps.

Educational Aim. The Reserve Officers' Training Corps enriches the educational resources of schools and colleges by contributing new problems, applications and equipment. This not only vitalizes the course of study but gives to the student a training which will be as valuable to him in his industrial

or professional career as it would be should the Nation call upon him to act as a leader in its defensive forces.

Moreover, the wide variety of work recognized and accepted by the War Department as of intrinsic value for military purposes should leave on the mind of the student an indelible impression of the extent to which the modern army is the Nation in arms. Commerce, industry, agriculture and all the professions have each their contribution to make to the military organization.

Physical Training. A military unit is largely dependent for its efficiency upon the physical fitness of the individuals composing it. Physical training, therefore, will form an essential part of the military instruction. It is the policy to encourage and support the physical training given by civilian teachers, thus co-operating with all other effective agencies in an effort to promote a more vigorous American manhood.

General Policy. (a) The policy adopted by the War Department to carry out the provisions of the Act of Congress of June 3, 1916, is a matter of vital importance to every citizen interested in the educational system of our country and the development of American youth. It aims to give all students of the Reserve Officers' Training Corps a thorough physical training, to inculcate in them a respect for all lawful authority, to teach the fundamentals of the military profession, leadership and the special knowledge required to enable them to serve efficiently in the various branches of the military service.

(b) The War Department aims to establish in selected civil educational institutions a system of training which will tend toward making better citizens and furnish a means whereby the graduates of such institutions can function more advantageously to the best interests of the Nation in time of military necessity.

ORGANIZATION.

Senior Division. The Senior Division shall consist of such units as may be organized at approved civil educational institutions which require four years collegiate study for a degree.

CONDITIONS OF MEMBERSHIP—SENIOR UNIT.

- (1) Must be citizens of the United States.
- (2) Must be not less than 16 years of age.
- (3) Must be physically fit.

Transfer of Members. A member of the R. O. T. C. who withdraws from an institution and enters another is not released from his obligation to continue the R. O. T. C. Training, and will complete the course undertaken (either basic or advanced) as a prerequisite for graduation from the second institution, if this institution maintains a unit of the Reserve Officers' Training Corps.

Withdrawal of Members. Upon the recommendation of the professor of military science and tactics, the authorities of an institution may discharge a member of the R. O. T. C. from such corps and from the necessity of completing the course of military training as a prerequisite for graduation.

Cadet Officers. Cadet officers shall be selected from members taking the advanced course, provided there are a sufficient number qualified. It is the intention to give the student entering the advanced course the benefit of an opportunity of training in a responsible rather than in a subordinate position and also to permit the professor of military science and tactics to determine his proficiency at different periods of the practical part of the prescribed course. It will also afford the professor of military science and tactics the opportunity to recommend that said student discontinue his work in the department if he is found to be incompetent and his work not up to the required standard.

TRAINING.

Object. The course for the senior division will have for its primary object the training of students, so that at the termination of their instruction they will possess the following essential characteristics of a well-balanced junior officer:

- (a) A good general education.
- (b) A good special education in the academic requirements of the special arm concerned.
- (c) A well-disciplined body and mind.
- (d) A basic military training and special instruction in an arm of the service.

General Education. The attainment of the first characteristic will be through the usual courses in the sciences and arts covered by students both before and after matriculation in

institutions of collegiate grade. All subjects should be so taught that the student shall become capable of clear, quick thinking, shall acquire a power of analysis and shall have the faculty of concise logical expression.

Special Education. The second characteristic will be attained by following the course of instruction which will fulfill the academic requirements of the branch of the service concerned. The exact nature of this course will depend upon the teaching and laboratory facilities with which the institution is provided. No effort will be made to limit or control the course other than by suggestion and aid in the nature of submitted instruction memoranda and problems. The course must, however, have a certain minimum scope in the requirements of the branch of the service concerned.

Discipline of Body and Mind. The attainment of the third characteristic will be reached by a combination of training on the drill ground and in the lecture room, laboratory and living quarters. The following characteristics of an officer and a gentleman, which are inculcated by a proper disciplinary training, will be insisted upon: Neatness in dress, the cultivation of the manners and habits of a gentleman, a dignified and military bearing, loyalty, truthfulness, punctuality, kindness, earnestness of purpose and devotion to duty; the cultivation in the student body of esprit de corps, obedience to orders, acceptance of responsibility and *avoidance of excuses*.

Discipline of Conduct. Violations of the regulations, misconduct and neglect of duties will be cause for the application of disciplinary measures.

Drills and Ceremonies. Close order drill and ceremonies have a disciplinary value and effect not to be obtained in any other manner and serve as the groundwork upon which to build military character and discipline; but proficiency in such drills will not be considered as the final result to be accomplished.

Band. Members of the R. O. T. C. may be trained and employed as members of the band, provided their prescribed military training is not interfered with. Members of the band

must qualify for reserve commissions by the same standards as other members of the R. O. T. C.

Absence. Absence from training or instruction will be excused only for physical disability or other exceptional reasons. Any member who is absent from any part of the practical or theoretical instruction shall be required, according to the practice obtaining at each institution, to make up the omitted training before being credited with the number of units necessary for graduation.

UNIFORMS AND EQUIPMENT.

Special Insignia for Excellence of Work. It is the intention from time to time to issue insignia indicating a rating for excellence obtained during each year of instruction, in addition to a badge of proficiency in target practice. Detailed instruction covering issue of these badges will be given in orders on uniform regulations.

R. O. T. C. Button. An R. O. T. C. bronze button, of the prescribed design, may be worn with civilian clothes by members of the R. O. T. C.

Distinctive Insignia for Distinguished Colleges. Members of the R. O. T. C. at an institution listed by the War Department as a "distinguished college," may wear during the period in which the institution remains on the list of distinguished colleges, a gold star, 1 inch in diameter, 6 inches above the bottom edge and outside middle of the right sleeve of the uniform blouse.

Educational institutions, the authorities of which desire commutation of uniforms in lieu of uniforms in kind, will be furnished commutation at the value per uniform allotted by the Secretary of War for each student in accordance with instructions issued from time to time.

Appearance. It shall be the duty of the professor of military science and tactics to endeavor to insure correct fitting and neat appearance of uniforms.

Arms and Other Ordnance Equipment. It is the policy of the War Department to issue to institutions maintaining

units of the R. O. T. C., the latest model arms and equipment in so far as the supply permits and in quantities sufficient to insure the proper instruction of the units organized.

Care of Property. All Government property must be kept in servicable condition. A proper allowance of cleaning material and spare parts will be issued for this purpose on requisition.

Receipts. Student members of the R. O. T. C. shall be required to receipt on proper form for all articles of Government property issued to them. In case articles are lost the student will be charged with the value of same.

DISTINGUISHED COLLEGES.

Colleges, Requirements and Number. Colleges and universities, not exceeding 20 per cent of the institutions maintaining units of the senior division, which best meet the following conditions will be designated as distinguished colleges and the year, or years, in which distinguished will be added:

(a) The curriculum of the institution must be sufficiently advanced to confer degrees.

(b) The average age of students on graduation must be not less than 21 years.

(c) The student body must exhibit unusual efficiency in military training.

(d) Graduates of that year must, by reason of discipline, education and military training be qualified for commissions in the Army.

Inspections. In addition to the inspections by the district inspectors, a special inspection by a committee of the War Plans Division, General Staff for the purpose of selecting the distinguished colleges, will begin about April 1 and be completed by about June 1 in each year.

Selection. After careful consideration of these reports, the R. O. T. C. Inspection Committee of the War Plans Division, General Staff, will prepare and submit to the Chief of Staff, not later than June 20 in each year, the lists of institutions recommended to be designated as distinguished colleges.

CLASSIFICATION.

St. John's College is classified by the War Department as a "Military College," which means that (1) the curriculum is sufficiently advanced to carry with it a degree; (2) the students are habitually in uniform; (3) the average age of the students on graduation is not less than 21 years; (4) military discipline is constantly maintained; (5) one of the leading objects is the development of the student by means of military drill and by regulating his daily conduct according to the principles of military discipline.

It has been classified as one of the "Distinguished" military colleges of the United States, which means, in addition to the above, that (1) the student body exhibits unusual efficiency in military training, both theoretical and practical, and (2) selected graduates, by reason of discipline, education and military training are qualified for commissions in the Army.

COURSES.

The Reserve Officers' Training Corps course is divided into two courses of two years each, to-wit: (1) Basic Course, freshman and sophomore years; (2) Advanced Course, junior and senior years.

The instruction is partly theoretical, known as "Military Science" and partly practical, known as "Military Tactics."

The theoretical instruction is given by means of recitations, lectures, conferences, demonstrations, map problems, map manoeuvres, tactical walks, etc.

The practical instruction is given by means of drills, target practice, marches, tactical field exercises, road and area sketching, signalling, construction of entrenchments and obstacles, etc.

The "Basic Course" is *required* of all *freshmen* and *sophomores* who are citizens of the United States, unless excused on the college doctor's certificate of physical disability.

Two hours Military Science per week = two hours academic credit.

The "Advanced Course" is elective for Juniors and Seniors (1) who are citizens of the United States; (2) who have completed the two academic years of the "Basic Course"; (3) who are selected by the professor of military science and tactics and the president of the college as qualified for further training, for appointment as cadet officers, and non-commissioned officers, and who, upon graduation, will probably be worthy of a recommendation for commissions in the Officers' Reserve Corps.

Three hours Military Science per week = three hours academic credit.

Either of the above two courses, once entered upon, must be satisfactorily completed as a prerequisite for graduation.

The practical instruction, known as "Military Tactics," five hours per week throughout the four years of college, is required of all students, whether taking the Reserve Officers' Training Corps courses or not, unless excused on the college doctor's certificate of physical disability.

COMMUTATION.

Cadets who are selected for the "Advanced Course" must agree, in writing, to pursue the course for the remainder of their time in college and to attend an Advanced Reserve Officers' Training Corps Camp during the summer between their junior and senior years. They receive from the United States cash commutation of subsistence from the beginning of the junior academic year to the end of the senior academic year, including the vacation period between the two years, except the six weeks camp period during which time they receive their subsistence in kind.

The rate of this commutation for the past academic year was 40 cents per day, making \$238.00 for the two years.

CAMPS.

Reserve Officers' Training Corps camps are held each summer by the War Department, this year at Edgewood, Md.

All cadets who attend are furnished at Government expense with transportation to and from the camps and subsistence while traveling.

While in attendance at a camp they are furnished free uniforms, equipment, subsistence and medical attendance.

"Basic Camps" are held for freshmen and sophomores and "Advanced Camps" are held for Juniors and Seniors.

Attendance at the "Basic" Camps is voluntary, but strongly recommended, particularly for those freshmen and sophomores who expect to be selected later for the advanced course and who are ambitious to become cadet officers and non-commissioned officers.

Attendance at an "Advanced" Camp is compulsory for all who are taking the "Advanced" Reserve Officers' Training Corps course.

UNIFORMS.

The uniform is the cadet gray, similar to that used at the United States Military Academy at West Point.

The following articles of uniform are required to be in the possession of each student and are purchased by the cadets at the contract price as arranged by the college authorities:

1 Fatigue blouse	\$18.50
1 Pair fatigue trousers.....	12.00
1 Cap	3.00
1 Overcoat	32.50
1 Dress coat	24.00
1 Pair dress trousers.....	12.50
1 Shakoe	2.50
1 Set cross belts.....	1.50
1 Pair leggins	1.50
2 Wool shirts	6.00
2 Pairs white gloves.....	.80
1 Pair woolen gloves.....	.80
4 Collars	1.00
3 Pair cuffs	1.20
1 Pair uniform shoes.....	6.10
1 Coverall	2.50
1 Rain cape	7.50

Total..... \$133.90

No uniform will be accepted until it has been inspected and approved by the President of the College, or the Commandant of Cadets.

The purchase of the uniform is compulsory and must be paid for when ordered.

Possibly these prices may continue for the coming season, 1922-1923, but, owing to fluctuation in prices, it is impossible to make a definite statement.

ELIGIBILITY FOR WEST POINT.

Under paragraph 1, General Order No. 3, War Department, January 23, 1914, a student who has been one year at St. John's College may enter West Point without examination, provided he present a properly attested certificate that he is a regularly enrolled student, in a good standing, without conditions.

COMMISSIONS.

Each year, upon completion of the advanced course, members of the graduating class who are qualified for commissions in the Officers' Reserve Corps will be selected and recommended by the president of the college and the Professor of Military Science and Tactics.

Honor Graduates of Distinguished Colleges. For each year that an institution is designated a "distinguished college," one member of its graduating class, to be selected by the president of the institution and the Professor Military Science and Tactics, will, upon graduation, be rated as "honor graduate."

Definition of "Honor Graduate." By the term "honor graduate" is understood a graduate whose attainments in scholarship have been so marked as to receive the approbation of the president of the school or college and whose proficiency in military training and intelligent attention to duty have merited the approbation of the Professor of Military Science and Tactics. The honor graduate must be a citizen of the

United States, unmarried, of exemplary habits and of good moral character. The honor graduate of a distinguished college must be not less than 21 nor more than 27 years of age.

Commissions for Honor Graduates of Distinguished Colleges. An appointment as second lieutenant of the Regular Army will be awarded annually to the honor graduates of distinguished colleges, provided such vacancies exist after the appointment of graduates of the Military Academy at West Point, and of qualified enlisted men of the Regular Army.

Mental Examination Omitted. The honor graduate of a distinguished college will not be required to take a mental examination but will be examined physically.

OUTLINE OF COURSES.

FIRST YEAR BASIC—FRESHMAN.

- I. Infantry Drill Regulations.
- II. Rifle Marksmanship.
- III. Scouting and Patrolling.
- IV. Physical Training.
- V. Military Courtesy.

SECOND YEAR BASIC—SOPHOMORE.

- I. Map Reading and Military Sketching.
- II. Infantry Weapons; the bayonet, automatic rifle, hand and rifle grenades.
- III. Musketry.

IV. Command and Leadership.

V. Military Hygiene, Sanitation and First Aid.

FIRST YEAR ADVANCED—JUNIOR.

I. Field Engineering.

II. Accompanying Weapons; the machine gun, 37 mm. gun, light mortar.

III. Military Law and Rules of Land Warfare.

IV. Command and Leadership.

SECOND YEAR ADVANCED—SENIOR.

I. Tactics.

II. Military History.

III. Administration.

IV. Command and Leadership.

MILITARY DEPARTMENT.

St. John's College has for nine years been designated by the War Department as a "Distinguished" military college, and every effort is made by the college authorities, with the loyal support of the cadet body, to continue in the "Distinguished" class.

During the late World War practically all of St. John's sons of suitable age were in the Government service as commissioned officers.

This record is one to be proud of, and shows conclusively the value and excellence of the training given at the college, as well as the "St. John's spirit" of loyalty and service.

The Commandant in charge of the Military Department is an officer of the Regular Army.

The military exercises are confidently recommended to parents and guardians as a means of giving to the students an erect and soldierly bearing, of teaching them habits of neatness, order and discipline, prompt and ready obedience, and of affording a systematic and healthful exercise on the drill grounds.

All students, except those physically disqualified, are required to attend the drills, and for those who apply to be excused because of physical disability, the college physician's certificate will be required.

It is the policy of the College to give the cadet officers and non-commissioned officers actual command and responsibility, such as they would have were they exercising the same commands in the regular Army, not only at drill, but in the barracks, where the officers and non-commissioned officers are held responsible for the good order and discipline of those under them.

This college is very advantageously located, as to its surroundings for the benefit of the student-body. From a military point of view they have the privilege of witnessing the drills and other military exercises, both of the United States Naval Academy and of the United States Marine Corps, the grounds of which reservations adjoin those of the college.

A most cordial interchange of social courtesies exists between the midshipmen and the student body of St. John's College.

The following rewards are open to Cadets for excellence in the Military Department :

1. Members of the graduating class who pass satisfactory examinations in Military Science are given certificates of proficiency. The certificate shows that the holder is qualified for appointment as an officer of the Reserve Officers' Corps.

2. The three Cadets in each class whose standing in theoretical military work is highest, and those Cadets who have no demerits on record at the end of a college year, are designated as Distinguished Cadets, and each Cadet so designated is permitted to wear a gold star on each side of the collar of his uniform for one year. Their names will be published in the catalogue each year.

3. Mr. Rowland Hazard, an alumnus of St. John's College, has presented a silver cup to the Cadet Battalion for the promotion of interest and efficiency in rifle shooting.

This cup is awarded annually to the company making the highest general average at record target practice. In computing this general average all absentees for whatever reason, except sickness excused on a physician's certificate, will be included and marked zero.

This cup becomes the property of the winning company for one year, the company and year being engraved on the cup.

4. As an additional incentive for individual excellence in rifle shooting, Mr. Hazard each year presents a medal to the individual cadet making the highest aggregate score at record practice, irrespective of whether or not such individual belongs to the company winning the cup for that year.

5. Major R. E. Jones, U. S. Army, an alumnus of St. John's, presents a sabre and sabre belt to the Cadet Captain of the company which wins the Colors at the annual competitive drill between the companies.

Company "B" won the Colors in the competitive drill held in the Spring of 1921 and the sabre and belt awarded by Major Jones were won by Capt. Thomas B. Turner, commanding Company "B."

6. At the annual target practice Cadets who are classified as Expert Rifleman, Sharpshooter, and Marksman are awarded medals. These medals become the property of the Cadets to whom they are awarded and are required to be worn at all times with the full dress uniform.

DISTINGUISHED CADETS, 1921-1922.

HEATH D. GOLDSBOROUGH	HEWETT LANGSDALE
JOHN H. SCHWATKA	H. VERNON TYDINGS
AUGUSTINE V. P. SMITH	JOSEPH E. COE
SYLVESTER P. SCHILLING	ROGER T. WARREN
JAMES F. McGRAW	JAMES GLASGLOW ARCHER
WILLIAM H. HANSON	JOHN R. SAVAGE
SINGLETON T. NAYLOR	JESSE E. SMITH

MILITARY CERTIFICATES WERE AWARDED TO:

WILMOT D. BROWN	WILLIAM P. MADDOX
JOHN D. CHRISTIAN	BEVERLEY S. ROBERTS
CHARLES E. COCKEY	LUTHER S. TALL
DUDLEY W. DAVIS	THOMAS B. TURNER
FRANKLIN C. HALL	RICHARD H. TOROVSKY
THOMAS M. JOHNS	EDWARD A. SNADER
WILLIAM H. Y. KNIGHTON	JOHN R. STREET
LAWRENCE W. KRUSEN	RALPH R. WEBSTER

ORGANIZATION OF CORPS OF CADETS.

COMMANDANT OF CADETS.

Lieutenant-Colonel Grosvenor L. Townsend, Infantry, U. S. A. (D. O. L.).
Professor of Military Science and Tactics.

ASSISTANTS TO THE COMMANDANT.

Captain Arthur J. O'Keefe, United States Army, Retired.
Captain Karl C. Schwinn, Infantry, United States Army (D. O. L.).
Staff Sergeant William Holz, Third Grade, Infantry, D. E. M. L.
Cadet Major John H. Schwatka, Battalion Commander.
Cadet 1st Lieutenant Willis H. White, Battalion Adjutant.
Cadet 2nd Lieutenant Heath D. Goldsborough, Battalion Quartermaster.

CADET NON-COMMISSIONED STAFF.

Cadet Sergeant Major Lloyd U. Lumpkin.
Cadet Color Sergeant James C. Greenwell.
Cadet Color Sergeant Singleton T. Naylor.

LEADER OF THE CADET BAND.

Lieut. Adolph Torovsky, Leader of the U. S. Naval Academy Band.

THE BAND.

Cadet 2nd Lieut. A. V. P. Smith, Chief Musician.

Cadet Quartermaster George B. Woelfel, Acting 1st Sergeant.

Special Pre-Medical Course

The minimum educational requirements acceptable to the Board of Medical Examiners of Maryland for the issuance of certificates of preliminary education for the study of medicine include a standard four year high school course and two years of college work.

(a) HIGH SCHOOL REQUIREMENTS.

For admission to the two-year premedical course students must have completed a four-year course of at least fifteen units in a standard accredited high school or other institution of standard secondary school grade, or have its equivalent as demonstrated by an examination conducted by a duly authorized examiner.

A candidate for admission to a standard School of Medicine who wishes to satisfy the requirements of the Board of Medical Examiners can take the following courses at St. John's College:

(c) SCHEDULE OF SUBJECTS OF THE TWO-YEAR PREMEDICAL COLLEGE COURSE. (Sixty Semester Hours Required.)

<i>Required Courses:</i>	<i>Semester Hrs.</i>
Chemistry (a)	12
Physics (b)	8
Biology (c)	8
English Composition and Literature (d) ..	6
French or German (e)	6-12

Courses Strongly Urged:

Advanced Algebra, Solid Geometry and Trigonometry	3- 6
Additional courses in Chemistry.....	3- 6
An additional Modern Language—French or German (e)	6-12
Psychology	3- 6
Embryology or Comparative Anatomy...	3- 6

But in admitting students preference will be given to those who have attained a higher degree of pre-medical preparation, and it is recommended that sixty-eight (68) semester hours of standard college work be taken exclusive of military drill and physical culture.

Required Subjects—

	<i>Semester Hours</i>
Chemistry	15 or 16
Biology	12
Physics	8
English Composition and Literature.....	6
German or French.....	6
Non-Science Subjects	6
Total.....	<hr/> 53 or 54

Additional Subjects Strongly Urged—

German or French.....	6
Advanced Biology	3-6
Additional Courses in Chemistry.....	3-6
Advanced Mathematics, including Algebra and Trigonometry	3-6
Psychology	3-6

Other Suggested Electives—

English (additional), Economics, History, Sociology, Political Science, Logic, Mathematics, Latin, Greek, Drawing.

SPECIFICATIONS REGARDING INDIVIDUAL SUBJECTS.

Chemistry—Fifteen or sixteen semester hours recommended, of which eight semester hours must be in general inorganic chemistry, including four semester hours of laboratory work. In the interpretation of this rule work in qualitative analysis may be counted as part of the requirement in inorganic chemistry. Of the remaining seven or eight semester hours, four must be in organic chemistry including at least two and not more than four laboratory semester hours. The remaining three or four semester hours should be devoted to quantitative analysis with special emphasis on volumetric work. Volumetric analysis is emphasized owing to its importance in medical chemistry. If extra time is to be devoted to chemistry an elementary course in physical chemistry is recommended.

Biology—Twelve semester hours recommended, of which six must consist of laboratory work. This requirement may be satisfied by a course of twelve semester hours in general biology, of which not less than eight semester hours must be in zoology, including four laboratory semester hours. The course in zoology must include a course in elementary embryology.

Physics—Eight semester hours required, of which at least four must be laboratory. It is urged that this course be preceded by a course in trigonometry.

English Composition and Literature—The usual introductory college course of six semester hours, or its equivalent, is required.

Non-Science Subjects—Of the sixty-eight semester hours, recommended as the measurement of two years of college work, at least eighteen, including the six semester hours of English, should be in subjects other than chemical, physical or biological sciences.

German or French—A reading knowledge of one of these languages is strongly urged. If a reading knowledge of one of

these languages is obtained on the basis of high school work, the student is urged to take the other language in his college course. It is not considered advisable, however, to spend more than twelve of the required sixty-eight semester hours on foreign languages.

When a student spends more than two years in college work he may well spend twelve semester hours in a second language.

Regarding the arrangement of the above required courses over a period of two years, the following chart will furnish some idea as to how these requirements would work out on a semester basis.

A semester hour is represented by: (a) One 50-minute lecture or recitation period per week for 16 weeks; or (b) one two-hour to three-hour laboratory period per week for 16 weeks.

THE SUB-FRESHMAN CLASS

By order of the Board of Visitors, issued in July, 1914, the Preparatory Department has been abolished, but, as students frequently present themselves for entrance in the Freshman Class who are found to be ineligible, by reason of their lack of scholastic qualification, to enter this class, a Sub-Freshman Class has been established under the control and direction of the Faculty of the College, in which such young men can make up their deficiencies and be prepared to enter the Freshman Class the following year.

These young men enjoy all the privileges accorded to the Freshman Class, and are under the same rules and regulations which govern and control that class.

Students wishing to enter the Sub-Freshman Class should have completed three years of High School work, duly vouched for by the Principal of the High School, or person of recognized ability on High School work.

Students wishing to enter the Sub-Freshman Class, who have not the required credits, as stated above, will be required to take examinations in the first and second year's work of the accredited High School to make up the required units of credit, and, if unable to meet such requirements, will be classed as "Special Students" until their requirements are made up.

Students who cannot present a duly signed certificate of having completed three years of High School work will be required to pass examination in subjects prescribed for entrance to the Sub-Freshman Class.

TEXT-BOOKS USED.

Wells' Text-book in Algebra.
 Gladden's Text-book in Geometry.
 Ward's Sentence and Theme.
 Morey's Outlines of Ancient History.

NIGHT SCHOOL

Extension Courses — Session 1921-1922

In order to extend its usefulness, St. John's College offers to both men and women certain systematic courses of instruction for those whose vocations prevent their attendance upon college lectures and recitations at the usual hours.

These courses are similar, so far as quality of instruction is concerned, to the corresponding courses given in the regular college work. The aim is to provide for teachers, and for others, special opportunities for further development along cultural and professional lines. The plan of instruction also provides that satisfactory work in these courses will be credited, under suitable regulations, toward the degree of Bachelor of Science.

The hours of recitation are arranged for the evening, from 8.00 to 10.00 P. M. English, Mathematics, History, French and Spanish have been given during the present session. Other courses will be offered, provided the number desiring them is sufficiently large to justify a class.

EXPENSES.

The charge for tuition is \$12.00 a year for each hour per week.

For further information concerning the extension work, Professor Sydney S. Handy, Director of the Extension Courses, should be consulted.

EXTENSION CENTRES.

Through the Extension Department arrangements may be made for conducting classes at centres near Annapolis. During the present session courses in Education have been given weekly at La Plata, Charles County, Maryland.

COLLEGE EXPENSES.

TO BE PAID TO NEVETT STEELE, TREASURER OF
ST. JOHN'S COLLEGE.

	First Term	Second Term
Tuition	\$50.00	\$50.00
Matriculation Fee (on admission)	5.00	
Athletic Association Fee	5.00	5.00
Seat in Church	1.50	1.50
Hire of Furniture	5.00	5.00
Steam Heat	10.50	10.50
Deposit for damage and loss of Military Equipment	10.00	10.00
Medical Fee	3.50	3.50
College Publications	7.50	
	<hr/>	<hr/>
	\$98.00	\$85.50

Laboratory Fees:

	First Term	Second Term
Chemical	\$10.00	\$10.00
Biology I	5.00	5.00
Biology II	5.00	5.00
Physical	2.50	2.50

Board, Laundry, Electric Light and Room Rent:

To be paid to the Treasurer of Co-operative Boarding Club, estimated about..	\$120.00	\$121.50
	<hr/>	<hr/>
	\$218.00	\$207.00
Total.....		\$425.00

In the above, no estimate is made for cost of uniform (see page 55) or text books.

A student is also expected to provide himself with table napkins, towels and the requisite bed clothing for a single bed.

There is also a small annual expense in the Literary Societies.

Funds of students may be deposited with the President of the College, or with some other member of the Faculty, who

will disburse the funds thus received in accordance with instructions he may receive from the parent or guardian.

Students should be especially warned of the risk incurred by keeping money in trunks or other receptacles in their rooms.

GENERAL DETAILS ABOUT EXPENSES.

The tuition charges for day scholars, including residents of Annapolis and students from other parts of Maryland and from other States, not lodging and boarding in the college halls are \$60.00 per term.

The annual college session consists of two terms, the first ending on the 6th of February, and the second on the third Wednesday of June in each year. All the college charges *are required to be paid in advance*, at the beginning of each term; *and no deduction will be made except for absence caused by protracted illness*. No student will be matriculated, nor will his name be entered upon the rolls of any term, unless he shall have presented to the President a receipt from the Treasurer of the College for all dues and arrearages, including a fee of \$5 for matriculation, and no diploma will be awarded unless the candidate shall have presented to the President a like receipt including a fee of ten dollars for a diploma. For the expenses of Senatorial scholars, see page 88. Every boarding student is required to deposit with the Treasurer a fee of \$1.50 per term, to be paid by him to such church as the student may attend. An additional charge of \$5.00 per term will also be made upon all students for use of the gymnasium, for instruction in gymnastic exercises, and for membership in the Athletic Association. (See page 84.)

Wilful damage, or damage resulting from carelessness, will be made the ground of additional charge, to be defrayed by the perpetrator.

The Treasurer shall require a deposit of \$10.00 from boarding students as a guarantee against wilful damage to college property, also a deposit of \$10 each term to cover any loss of military equipment issued out to each Cadet, to be returned at the close of the session, less any charges that may have been assessed against them during the college year.

All students holding scholarships are required to lodge in the college halls, and those holding Senatorial scholarships are

provided with room furniture, for the care of which they are held strictly accountable.

Students not holding Senatorial scholarships are required to provide themselves with furniture. Furniture may, however, be hired from the college authorities at from \$5.00 to \$7.50 per term, according to its character and cost, and the hirer will be held responsible for all damages thereto, beyond the reasonable wear and tear of the same.

Disbursements will be made for personal expenses of students, if funds are deposited by parents or guardians for this purpose, *but no advance will be made by the College*. Books will also be furnished to students, provided a deposit of ten dollars be made for that purpose at the beginning of each term. At a final settlement, at the close of the year, the unexpended balance, if any, will be refunded.

BOARDING.

The three college dormitories, Pinkney, Humphreys and Randall Halls have each been provided with a steam heating apparatus of the most approved sort, which has been thoroughly tested during the severe weather of past winters and found entirely satisfactory. The lodging rooms have also been recently renovated and painted, and other improvements made conducive to the health and comfort of students.

The boarding department of the College in all its branches is under the supervision of the President. The boarding houses will be closed during the Christmas and summer vacations.

A College Co-operative Boarding Club has been organized in place of the College Commons, and has been successfully carried on during past years.

Under this system at the close of each month, an inventory is taken, all accounts are settled and the expenses are divided among the members of the club. An auditing committee is then appointed each month by the club, to examine the books of the commissary and to report to the club.

Each member must advance \$10.00 at the commencement of each month, and at the close must pay the balance due, as no deficit is allowed to run into the following month.

The exact cost of board for next year, including washing, lights and room rent, cannot be known, as market prices vary, but it may be safely estimated to be about \$240.00 for the whole session.

LIBRARY AND READING ROOM.

Through the liberality of the Legislature of 1902, and donations from the Classes of '71, '72 and '73, extensive additions have been made to the library, and by means of the regular library fund subscriptions have been made to a number of American and foreign periodicals. A complete library being an indispensable auxiliary to the intellectual advancement of professors and students, its claims are commended to the alumni and to the friends of education in the State. Any contributions of books or funds will be gratefully acknowledged.

There are now on the shelves about 10,000 volumes, which are carefully classified and catalogued, thus forming an admirable working library for the student. Among these works are 850 bound volumes of American and English periodicals. Easy access to the contents of these works is furnished by Poole's Index of all subjects treated of in home and foreign magazines.

The *College Library and Reading Room* is open every day 10.30 to 12.30, 3.30 to 5.30, 8.00 to 10.00 p. m., for reading and taking out of books and periodicals. The following magazines and reviews, furnishing all a student can reasonably need, are on file for 1921: Atlantic Monthly, Century Popular Science Monthly, Harper's Monthly, North American Review, Forum, The Academy, Saint Nicholas, Scribner, McClure's, Munsey, Outing, Nineteenth Century, Literary Digest, Cosmopolitan, Strand, Scientific American, Scientific American Supplement, Review of Reviews, Sewanee Review, The New Republic, World's Work, Survey, Popular Mechanics, Red Book.

SCHEDULE.

University of Maryland, Mt. Washington, United States Naval Academy, Lehigh University, Baltimore City College, Baltimore Polytechnic Institute.

GYMNASIUM.

A gymnasium has been erected and equipped with apparatus for complete physical training.

The building covers a ground space of 158 feet by 200 feet. The main gymnasium room is 120 by 160 feet, surrounded by a gallery containing a running track. There are bowling alleys, a rifle range, a reading room, a trophy room, and a secretary's room; also a large locker room 70 by 17 feet, containing individual steel lockers for each student. Adjoining this is a swimming pool, with a large shower-bath room and lavatory attached. There is also a smaller locker room for the use of members of visiting teams, containing steel lockers; also a large spare room.

Physical training is compulsory, and each student is required to attend classes for instruction in gymnastics and physical exercises, two hours per week, from the first of October until the first of April, unless specially excused to engage in outdoor sports during these hours.

Further donations towards the gymnasium will be gladly received from alumni and other friends of the college.

ATHLETICS.

The students have excellent facilities for athletic games, which are kept under supervision. No student who is physically unfit is allowed to take part in an athletic contest.

TENNIS PRIZE.

In order to stimulate interest in tennis, a silver loving cup has been presented by Messrs. D. C. Downs and J. C. Fell of the Class of 1917. The name of the winner of the College Championship Singles will be inscribed annually upon it, and if any student shall have won the championship three successive years the cup will become his personal property, and a new cup will be presented.

It is hoped that similar prizes in other branches of athletics may be offered by the Alumni.

BENEFICIARY AID.

STATE SCHOLARSHIPS FOR BOARD AND TUITION.

The General Assembly of the State (Act of 1872, Chapter 303, and 1879, Chapter 315,) has provided for furnishing board, fuel, lights, and washing to the incumbent of one State Scholarship from each Senatorial District in the State, to be appointed by the Board of School Commissioners, by and with the advice and consent of the Senators in their respective districts, after competitive examination. The law requires that the candidate shall produce before the Board of School Commissioners satisfactory evidence of their moral character, and of their inability or the inability of their parents or guardians, to pay the regular College charges. A blank form or certificate, drawn in conformity to the above law, will be forwarded to the secretaries of the several school boards for the use of the appointees to the said scholarships. These scholarships are tenable for four years, and the incumbents are required by law to pledge themselves that they will continue students of the College for the full term of four years, unless prevented by unavoidable necessity, and that they will teach school within the State for not less than two years after leaving College. To obtain a full collegiate education, the object contemplated by the Act, candidates should be prepared to enter at least the Freshman Class of the College. The boards of school commissioners are earnestly requested to exercise great care in the selection of these students, and especially to appoint none deficient in preparation. The Faculty is empowered to extend the term of these scholarships one year in case of worthy students. The incumbents of these scholarships will hereafter be required to provide their own text-books.

After graduation of the present Senior Class there will be nine vacancies in these scholarships, viz: One each from the counties of Anne Arundel, Garrett, Howard, Queen Anne, Talbot, Wicomico, First District of Baltimore City, Second District of Baltimore City, Third District of Baltimore City.

In filling these vacancies, the boards of school commissioners are requested (other things being equal) to appoint those candidates who are not less than sixteen years of age, and are most advanced in their studies. It is desired that all applicants hereafter should be prepared to enter the Freshman Class of the College.

STATE SCHOLARSHIPS FOR TUITION ONLY.

The law of the State of Maryland (Act of 1894) granting an additional appropriation to the college, provides for the education of twenty-six State students, in addition to the foregoing, free of expenses for tuition. These scholarships will be distributed among the counties of Maryland, in order of priority of application. The holders of these scholarships will be required to provide the cost of their board, about \$225 (see page 81), and pay incidental fees for church, gymnasium, heat, and hire of furniture.

In order to promote closer relations between the college and the educational system of the State, the Board of Visitors has offered a free tuition scholarship to the young man graduating highest in his class at the following High Schools:

Cumberland, Allegany County.
Lonaconing, Allegany County.
Frostburg, Allegany County.
Annapolis, Anne Arundel County.
Catonsville, Baltimore County.
Reisterstown, Baltimore County.
Towson, Baltimore County.
Sparrows Point, Baltimore County.
Denton, Caroline County.
Westminster, Carroll County.
Elkton, Cecil County.
Cambridge, Dorchester County.
Frederick, Frederick County.
Brunswick, Frederick County.

Oakland, Garrett County.
Havre de Grace, Harford County.
Ellicott City, Howard County.
Chestertown, Kent County.
Rockville, Montgomery County.
Laurel, Prince George's County.
Centreville, Queen Anne County.
Crisfield, Somerset County.
Easton, Talbot County.
Hagerstown, Washington County.
Salisbury, Wicomico County.
Pocomoke City, Worcester County.
Snow Hill, Worcester County.

Also the following Academies:

Charlotte Hall Academy, Charlotte Hall.
Rockville Academy, Rockville, Md.
Anne Arundel Academy, Millersville, Md.
Two to the Jacob Tome Institute at Port Deposit, Md.

The following counties, having no high schools, the school commissioners are granted the privilege of designating a student to a similar scholarship, viz:

Calvert County.
Charles County, also McDonogh Institute, La Plata.
St. Mary's County.

BOARD OF EDUCATION.

The Board of Education of the Presbyterian Church grants aid to young men preparing for the ministry in the denomination. The aid may be obtained either while in college or in a Theological Seminary. At present the amount given is \$150 per annum.

SCHOLARSHIPS FOR SONS OF CLERGYMEN.

All sons of clergymen are given education free of charge. The Trustees of the Byrd Wyman Fund, Baltimore, also grant one or more scholarships, which provide both board and tuition to such students of the college.

THE JEREMIAH HUGHES SCHOLARSHIP.

A scholarship, providing the sum of \$30 per annum towards the cost of tuition, has been established upon the above foundation. It is available for deserving youths of all denominations, but preference is to be given to candidates who are residents in Annapolis.

THE ROEHLE SCHOLARSHIP.

A scholarship providing free board and tuition for a student, preferably from Baltimore City, has been established under the provision of a bequest from Mrs. C. Roehle. It can be retained for four years, through the college course.

COLLEGIATE SCHOLARSHIPS.

The following regulations have been made by the Board of Visitors and Governors for the establishment of scholarships in connection with the College:

For a permanent scholarship for tuition, \$1,500. For a permanent scholarship for board and tuition, \$6,000. For a scholarship for the tuition of a student through all the college classes, \$300. For a scholarship for the board and tuition of a student through all the college classes, \$1,200. For any other scholarships the sum reduced shall be in the same proportion, the money in each case to be paid in advance into the treasury of the College. The establishment of these scholarships is commended to the attention of the alumni and friends of the College.

PRIZES.

ORATORY.

1. A prize of \$20.00 is offered annually by the Alumni Association of St. John's College to that member of the Senior Class who shall prepare and deliver the best original oration.

2. A gold medal is awarded to the member of the Junior Class who gains the first place in the Oratorical Contest of that Class.

3. The Oratorical Association of Maryland Colleges holds an annual contest, to which students of St. John's College are eligible, and a gold medal is awarded to the successful contestant.

4. Mr. Ridgely P. Melvin offers a gold medal to that member of the Freshman Class who makes the best record in Public Speaking. The award to be decided by a contest.

A gold medal is offered by the Alumni Association to "that member of the Senior Class who, during his four years at College has shown the best all-around results."

The Board of Visitors will present annually a gold medal to that member of the Senior Class who shall have attained the highest record in his academic work.

The Rev. James M. Magruder offers to the Freshman Class a prize of books for the best essay on the Colonial History of Maryland.

Mr. Walter H. Hart, of Annapolis, offers a set of books as a prize to the student in the Freshman Class who has done the best work in English.

The Board of Visitors and Governors will present annually a gold medal to that member of the Senior Class who shall have attained the highest record in his academic work.

BIBLICAL STUDY.

The President of the College offers a prize of books to the student who shall have attained the highest merit in the Bible Class.

THE PHILO SHERMAN BENNETT.

Under the will of the late Philo Sherman Bennett, a prize of \$25.00 is offered each year for the best essay on the "Principles of Free Government."

Dr. A. W. Thompson, of Pittsburgh, Pennsylvania, offers a prize of \$25.00 to that member of the Senior Class who makes the highest average for a year in the three studies, Biology, Chemistry, and Physics.

ALUMNI ASSOCIATION OF ST. JOHN'S COLLEGE.

The Alumni of St. John's have a strong Association, the purposes of which are to advance the interests of their Alma Mater, to promote the social intercourse among St. John's men, to assist the individual Alumnus and to stimulate and encourage the students.

Regular meetings are held at stated periods throughout the year and special meetings are called whenever necessary to consider matters of importance. During Commencement Week, a regular meeting is held in Annapolis, usually on Commencement Day. The fall meeting takes the form of a smoker and is held in Baltimore, following the St. John's vs. Hopkins football game. The general business meeting for the election of officers is held during the winter and is usually preceded by the Annual Banquet, to which all Alumni are invited to subscribe, whether or not they are members of the Alumni Association.

The Alumni Association is represented at all the meetings of the Board of Visitors and Governors by the Alumni Advisory Council, elected annually by the Association, and the interest of the Alumni, as expressed through the activity of the Alumni Association has always been of vital importance to the College as well as to the individual Alumnus. The success of the College in the future depends largely on the continued activity of the Alumni Association.

The Alumni Association places itself at the disposal of those Alumni just graduated in order that they may obtain advantageous positions, and rewards of various kinds are offered to the members of the student body who have distinguished themselves in the different branches of College activity.

At the suggestion of the Advisory Council, the Board of Visitors and Governors has appointed a Publicity Agent of the College, and the Association earnestly desires the hearty co-operation of every alumnus in his work, so that in whatever part of the State he may go, he will receive cordial recognition.

The following are the officers for the present year:

President, OSBORNE I. YELLOTT, '91.

Vice-Presidents

DR. J. A. NYDEGGER, '90, L. B. KEENE CLAGGETT, '95,
